## OIL CHANGE

Oil change – a high-quality, hand-pressed olive oil, which quickly and effectively puts an end to squeaky dry salads, bone-dry fish and rigid pasta dishes. In an olive oil manufacturing plant in Catalonia, south of Barcelona, fresh rosemary, chillies or lemons are cold-pressed together with olives, to give the oil its unique aroma.

## ABOUT »THE DELI GARAGE«

With tasteful packaging, meticulous attention to design and fresh ideas, The DeliGarage helps small local manufacturers market their products, turning quality delicacies into special design products.

FOOD COOPERATIVE

## FUEL

For months, a one-man distillery in Germany worked on the perfecting this fuel: a 40% vodka in a range of extraordinary flavours. Melon & mint, ginger & coriander and espresso. Practically filled in lovingly illustrated hip flasks, they fit in every boiler suit and go down particularly well after a hard day's work.
